

PDF JavaScript calculator

Firefox PDF.js demo - enter two numbers to calculate their sum.

Try 12 and 30, then press Tab or click outside a field.

Number A

Number B

Sum (calculated)

JavaScript calculation:

```
event.value = Number(this.getField("a").value || 0)
              + Number(this.getField("b").value || 0);
```

Note: Firefox support depends on PDF.js JavaScript settings/version.
macOS Preview does not execute this calculation script.
